**NEW!**  
**Version 7.5**

# Home and Office

Version  
7.5

With computer viruses, spyware, intrusion attacks, spam and other forms of malicious activities becoming more prevalent, the risk to your computer(s) and private information is amplified. Estimates of the damage caused each year by all the variants of Internet threats run as high as hundreds of billions dollars. To protect themselves, already over 40 million users rely on Grisoft and its award-winning line of AVG software products – and you can, too.

## WHAT MAKES AVG SPECIAL

Grisoft solutions are unique in their ability to protect you against more types of threats, whilst being light on system resources and easy to install, configure and use. AVG is respected around the world as high-quality security software with a long history.

### Some highlights of AVG include:

- Standard 2-year license policy with an optional 1-year license available
- Unique combination of heuristic analysis and generic detection methods
- Free program updates and versions for the duration of the license
- AVG Admin - Remote Administration
- Automatic high speed updates via professional downloading services
- Professional and rapid 24/7 technical support
- Multilingual in one package
- More than 40 million satisfied users worldwide
- Special discount for educational and charitable organizations
- Attractive renewal prices
- Award-winning, certified solution
- Ease of installation and use
- Light on system resources
- Detection of Potentially Unwanted Programs
- Support for Windows 64-bit Edition
- Single installation package for all products
- Basic and advanced interface for user flexibility
- AVG Update Bulletin – e-mail information concerning the availability of new updates, current virus outbreaks, and other important news
- And much more

Grisoft's AVG software solutions provide reliable protection to homes, offices, small to medium businesses and enterprises of any size. Since its foundation in 1991, the company has achieved rapid growth. Corporate offices are located in Europe and the US, business partnerships are established in UK, Germany, France, Brazil, Australia and New Zealand and distributors are present in many European countries. Grisoft resellers are successfully selling AVG products in more than 170 countries.

## AVG Anti-Virus Professional Edition

Antivirus

### Virus protection for home and office.

#### Comprehensive protection

To ensure maximum antivirus protection, AVG Anti-Virus Professional Edition uses a combination of advanced detection methods, including heuristic analysis, generic detection and scanning. AVG stops viruses before they can be activated or saved to your hard drive or removable media. Additionally, AVG supports detection of Potentially Unwanted Programs.

#### Easy to install and use

AVG Anti-Virus Professional Edition is very easy to install and configure, all the key tasks are pre-defined to run automatically. For user flexibility, AVG offers both basic and advanced interfaces.

#### Automatic high-speed updates

AVG can be updated automatically as scheduled, or manually when required. Updating AVG is very simple and fast, AVG's small update files (typically, tens of kBs) are distributed via high speed professional downloading services.

#### E-mail protection

AVG scans all incoming and outgoing e-mail attachments, and also supports scanning of attachments to instant messaging services such as MSN and ICQ. Outgoing e-mails can be certified as virus free.

#### Supported platforms

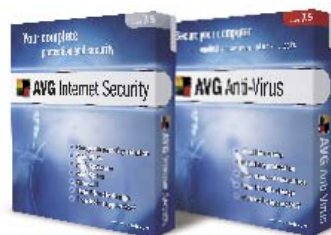

Windows 98/Me/NT/2000/XP(32/64-bit)/Vista(32/64-bit)

#### Supported languages

English, German, Czech, French, Hungarian, Italian, Polish, Portuguese, Brazilian Portuguese, Spanish, Serbian, Slovak, Danish, Dutch, Japanese

#### Licensing

AVG Anti-Virus Professional Edition requires one license per computer, and is available in 1, 2, 3 and 5 license packs.

Grisoft's primary focus is to deliver to the market the most comprehensive and proactive protection available. Version 7.5 represents an important milestone in Grisoft's product development, as Grisoft moves from an antivirus provider to a provider of complete security solutions in the home, office and small to medium business segments. Full security solutions for the enterprise segment will follow soon.

## AVG Anti-Malware

Antivirus

Antispyware

### Virus and spyware protection for home and office.

#### Reliable antivirus protection

AVG Anti-Malware protects you on multiple levels, using a unique combination of detection methods. With AVG's award-winning antivirus technology you will be protected in real-time against computer viruses, Trojan horses, worms and other forms of random, malicious programs.

#### Integrated powerful antispyware protection

AVG Anti-Spyware's advanced features protect against spyware, adware, dialers, keyloggers, and worms. Superior detection methods and state-of-the-art technology protect your data and privacy against the latest generation of threats spreading over the Internet.

#### Automatic high-speed updates

Updating AVG is very simple. You can either select automatic daily file scanning or manually create a custom schedule according to your needs. AVG's small update files (typically, tens of kBs) are distributed via high speed professional downloading services.

#### Highly automated product

AVG Anti-Malware is very easy to install and configure, all the key tasks are pre-defined to run automatically so that the AVG user does not have to be technically savvy. Antivirus and antispyware components are easily accessible via the AVG Control Center, where you can also quickly get at-a-glance program status and modify settings as needed.

#### Low demand on system resources

AVG Anti-Malware is optimized for fast scan and detection performance; it's multiple languages come in one package; the memory consumption is low for the supporting screen reader programs for the visually impaired.

#### Supported platforms

Windows 98\*/Me\*/NT\*/2000/XP(32/64-bit)/Vista(32/64-bit)  
(\* antispyware on-access scanner is not supported)

#### Supported languages

English, German, Czech, French, Hungarian, Italian, Polish, Portuguese, Brazilian Portuguese, Spanish, Serbian, Slovak, Danish, Dutch, Japanese

#### Licensing

AVG Anti-Malware requires one license per computer, and is available in 1, 2, 3 and 5 license packs.

## AVG Internet Security

### Complete protection for home and office.

#### Reliable antivirus protection

AVG Internet Security protects you on multiple levels, using a unique combination of detection methods. With AVG's award-winning antivirus technology you will be protected in real-time against computer viruses, Trojan horses, worms and other forms of random, malicious programs.

#### Integrated powerful antispyware protection

AVG Internet Security's advanced features protect against spyware, adware, dialers, keyloggers, and worms. Superior detection methods and state-of-the-art technology protect your data and privacy against the latest generation of threats spreading over the Internet.

#### Integrated firewall protection

AVG Internet Security protects you against unauthorized access to your data by hiding your computer from hackers. With the help of the Configuration Wizard it takes just a few minutes to install. The AVG Firewall component can be configured via an easy to handle dialog. If desired you can temporarily stop all traffic.

#### Sophisticated protection against spam

Being equipped with an antispam engine, AVG Internet Security provides fast and accurate spam filtering with a low false positive rate. With heuristic filtering to catch new spam outbreaks and updates released every 5-minutes, AVG offers technology that learns rapidly as spam changes.

#### Low demand on system resources

Providing complete protection, multiple languages in one package and supporting screen reader programs for the visually impaired, AVG consumes low levels of systems resources.

#### Supported platforms

Windows 98\*/Me\*/NT\*/2000/XP(32/64-bit)  
(\* antispyware on-access scanner is not supported)

#### Supported languages

English, German, Czech, French, Hungarian, Italian, Polish, Portuguese, Brazilian Portuguese, Spanish, Serbian, Slovak, Danish, Dutch, Japanese

#### Licensing

AVG Internet Security requires one license per computer, and is available in 1, 2, 3 and 5 license packs.

## AVG Anti-Virus plus Firewall

### Virus and intrusion protection for home and office.

#### Reliable antivirus protection

AVG Anti-Virus plus Firewall protects you on multiple levels, using a unique combination of detection methods. With AVG's award-winning antivirus technology you will be protected against computer viruses, Trojan horses, worms, and a host of Potentially Unwanted Programs.

#### Robust protection against intrusion attack

AVG Firewall protects you against unauthorized access to your computer from internal and external networks. By hiding your computer from hackers, AVG Firewall helps to maintain your privacy and protects personally identifiable information from being sent from your computer without your permission.

#### Easy to use pre-configured firewall

AVG Anti-Virus plus Firewall takes just minutes to install and configure and all the key tasks are predefined to run automatically. Antivirus and firewall components are easily accessible via the AVG Control Center. AVG Firewall is configured via an easy to handle dialog. AVG plusFirewall supports multi-user logging in Windows XP and proxy server authentication.

#### Flexible, easy to specify rules

AVG Firewall offers flexible, easy to create access rules for allowing/blocking specific traffic, and AVG can prompt you for a decision in certain situations. The "Stop All Traffic" feature can be used to temporarily block all network traffic. Firewall events are logged into a transparent file.

#### Supported platforms

Windows 98/Me/NT/2000/XP(32/64-bit)

#### Supported languages

English, German, Czech, French, Hungarian, Italian, Polish, Portuguese, Brazilian Portuguese, Spanish, Serbian, Slovak, Danish, Dutch, Japanese

#### Licensing

AVG Anti-Virus plus Firewall require one license per computer, and is available in 1, 2, 3 and 5 license packs.

## AVG Anti-Spyware

### Spyware and adware protection for home and office.

#### Powerful antispyware protection

AVG Anti-Spyware's advanced features protect against spyware, adware, dialers, keyloggers, and worms. Superior detection methods and state-of-the-art technology protect your data and privacy against the latest generation of threats spreading over the Internet.

#### Special features

Special features of AVG Anti-Spyware include scanning and cleaning of the Windows registry, heuristics to detect unknown threats, scan inside archives, generic binder detection, automatic Cleaning Engine, real-time monitoring of the entire system, self-protection at kernel layer and much more.

#### Easy to use

It is simple to install and operate. No IT expertise is required and it can run in the background, providing uninterrupted protection. All application launches are checked automatically, allowing you to get on with your work without worrying about spyware.

#### Light on resources

It is extremely fast, reliable and light on resources. No matter how demanding a user you are, it will not slow down your computer's performance.

#### Supported platforms

Windows 2000/XP

#### Supported languages

English, German, Czech, French, Hungarian, Italian, Polish, Portuguese, Brazilian Portuguese, Spanish, Serbian, Slovak, Danish, Dutch, Japanese

#### Licensing

The number of AVG Anti-Spyware licenses is determined by the total number of workstations. License packages: up to 1, 2, 3, 5, 10, 15, 20, 25, 30, 40, 50, 75 and 100. For more information about larger configurations contact us at sales@grisoft.com.

*„I can't tell you how many of my friends have replaced their Antivirus programs with AVG and never been happier just like me!“*

Dale W. Horn

## AVG RESCUE CD

AVG Rescue CD is basically a portable variant of AVG based on the Windows PE platform. It is distributed as a bootable CD intended for operating system recovery in such an event where the system cannot be booted normally.

## SERVICES

### Professional and Rapid Technical Support

With all AVG products, technical support is available to all registered users, 24 hours a day, 7 days a week, via e-mail. The Grisoft support staff provide expert consultation with rapid response times. AVG Authorized Resellers are also available to assist you with sales and technical questions.

### Professional Customer Support

Please send any sales related questions at [sales@grisoft.com](mailto:sales@grisoft.com). Our sales team will help you to find a solution that matches your needs the best. Your questions will be answered within a day or two.

### Fully functional Trial Version

Grisoft offers a fully functional Trial Version of all AVG products. For the duration of 30-days you are free to test the AVG performance together with technical support service.

AVG Internet Security Control Center

### AVG Update Bulletin

AVG Update Bulletin is an optional e-mail information concerning the availability of new updates, current virus outbreaks and spyware threats, spam epidemics and other important news.

## AVG LICENSING MODEL

Grisoft AVG software is sold with a standard 2-year license. If required, an optional 1-year licence is available.

Registered users of all AVG commercial products are eligible for the entire duration of their specified license period to:

- all applicable virus, spyware, adware, and spam database updates and program upgrades
- 24/7 technical support via e-mail
- Professional downloading service
- 50% discounted license renewal
- And much more...

### AVG License Increase

License increase represents a growth in the number of licenses for a specific product. When increasing the license, the user specifies the target number of licenses and is invoiced for the difference between the price of licenses already purchased and the price of requested licenses.

**During the first half of the license period the difference is paid in full (100 %).**  
**During the second half of the license period, only 50 % of the price difference is paid.**

### AVG Cross Upgrade

Cross upgrade enables current AVG paid customers to purchase an upgrade to an AVG product of a higher protection level at a discounted price. The number of licenses upgraded must be equal to the number of licenses that you currently have.

### AVG License Renewal

At the end of the license period, all registered AVG users are eligible for up to 50 % discounted license renewal for the next period.

### AVG Renewal and Cross Upgrade

As renewal time approaches, current AVG users may take the opportunity of this special offer to renew their AVG license and at the same time get additional protection by upgrading to one of our advanced products. The number of new licenses will be the same as the number of original licenses.
